

Overall Plan

- P1: 1/21-2/4 Executable GUI; Splunk tests;
- P2: 2/4-2/18 Rework GUI; prototype end-to-end workflow; integrate example data; prototype vector edits
- P3: 2/18-3/3 Integrate Splunk; Maltego tests; direct inputs and outputs;
- P4: 3/3-3/24 Rework UI; complete log ingest; transcription tests;
- P5: 3/24-4/7 Implement log entry management (sort, edit, view, associate);
- P6: 4/7-4/21 Respond to client, refactor, test;
- P7: 4/21-5/5 Final project delivery to client.
